

Come and join our community!

Koala offers autistic-led support for autistic and neurodivergent individuals, their families and carers. We also support those with learning disabilities, social anxiety and those who may struggle to access support groups.

We also support professionals who work with neurodivergent people.

A diagnosis is not needed to access our services and we support all ages. Our sessions are held in a sensory-friendly and low-demand environment (groups are limited in numbers) with our own dedicated sensory rooms!

Technology is encouraged - we are a tablet and phone inclusive environment so please bring them with you, to help anxiety (including young people).

Support is provided through peer groups, training, drop-ins and much more! We also offer online groups.

Select the QR code below, on your phone, to book sessions for:

**Toddlers
Young People Not in School
Teens
Kids
Family
Adults/Young Adults (16 to 25)
Parent Support
Board games
LGBTQ+**

Our website has videos of what to expect - if you need support, contact us!

Visit our website for more information and details on how to book our sessions. Sessions are held in Andover, Hampshire but open to those who can travel to the centre or join us online.
